Subject: OCCUPATIONAL HEALTH BOOKLETS

Since sending you my memo and copies of booklets on January 25, 1980, it has come to my attention that many of you do not have copies of the standard language used as answers in our interrogatories regarding these booklets. Therefore, I am enclosing a copy of this standard language, which sets out the dates each booklet was published, as well as other data you may find helpful.

Please let me know if you have any additional questions or if you need anything further in this regard.
