Subject: Jayemmer Magazines

As you requested, I called Frank Angelos to inquire about the Jayemmer magazines. He does not know when the first Jayemmer was published and stated that he gave all of his personal copies to you. He suggested I call Ed Garolis, as he was Assistant Editor and Photographer for the magazine for a number of years. Mr. Garolis could not remember when the first magazine was published, but did have some personal copies at home, which he brought in for me to look at. Unfortunately, the only one he had that we did not have was April, 1949.

As to whether this was published monthly, I believe from my review of the magazines we have, that the earlier issues were put out weekly until 1945, when they began publishing them monthly.

I am attaching a list of the missing editions.
