RE: DOCUMENTATION

Dear Peter:

In reviewing the documents produced in Connecticut, I have come across the items marked JM (CTEX 54 a-e, id.) and JM (CTEX 55 a-e, id.). I presume that these documents were submitted in response to II 12 and II 14(a-c). My records do not indicate what specific requests we are responding to and therefore would you kindly provide more information.

I am also enclosing some additional recommended practices pamphlets that were available. I believe we included them in the materials produced but we will not have an exhibit number on our copies. Would you kindly verify that these have already been produced.

Sincerely,

James K. Green/jp
