Gentlemen and Ms. Marsh:

Among the documents produced by Shipbuilders Council are the enclosures, many of which we have previously seen and previously introduced as trial exhibits in Virginia litigation. It would be helpful to know which of the enclosures Johns-Manville wrote and provided to trade organizations or government agencies to disseminate. Of equal importance is some information as to the time these safety pamphlets were written and/or distributed.

Very truly yours,

SEAWELL, DALTON, HUGHES & TIMMS
