A. L. Fisk, Jr. - GHQ

I have Mr. Lindell's copy of a letter you wrote Jack Kelleher on March 6th, relating to rules and regulations with reference to labeling asbestos fibre for shipment into the State of Illinios.

It is considered here that this subject might properly be discussed at one of our Quebec Asbestos Mining Association meetings, and I will appreciate it if you can send me a copy of that portion of the statutes of Illinios which cover such requirements.
